

GemSeal[®] Mastics

GemSeal[®] Mastics are a hot-applied compound used for the partial or full-depth repair of concrete and asphalt pavements. Available in two formulas—highly modified asphalt binder (black) and resin (gray) with aggregates to provide long-lasting repairs and years of performance to distressed pavements, spalled concrete, utility cuts, and many other pavement repairs.

APPLICATION USES

- Wide, depressed crack repair where the problem is too wide to crack seal effectively
- Level out bridge approaches and other elevation issues
- Manhole leveling to lessen the effects of snow plows and uneven transitions
- Repair spalled concrete without removing and re-opening to traffic within a few hours
- Minor, quick repairs in streets and sidewalks
- Pretreat fatigue-cracked areas prior to surface treatments
- Provide a surface repair over alligatored asphalt or concrete

DURABLE

- Load bearing and impact resistant
- Superior bond to existing pavement
- Remains flexible and highly durable

EASY TO INSTALL & CONVENIENT

- For use on asphalt or concrete surfaces
- Highly workable for less handling
- No heavy compaction equipment necessary
- Re-open to traffic within a few hours

GemSeal manufactures, supplies, and specifies pavement preservation products nationwide including sealers, additives, lot marking paints, crack sealants, patching materials, and primers. We also offer a variety of tools as well as equipment for sale or to rent. For over 60 years, we have been defined by our products, value, delivery, and customer support. We guarantee exacting quality control and consistent results on every jobsite nationwide.

Mastics

55-Gallon Mastic Melter

1. 4" Molasses Valve
2. Control Panel
3. Utility Hand Torch
4. Hydraulic Agitation System

SPECIFICATIONS

Capacity: 55 Gallons
BTU Output: 60,000
Dimensions: 33" x 87" x 34"
Weight: 585 lbs. (Unloaded)
1435 lbs. (Loaded)

KEY FEATURES

- Thermostatically controlled
- Triple-wall construction
