

All-Weather Cold-Mix Asphalt for Instant and Permanent Pavement Repairs

GemSeal® PermaFix is a premium cold-mix asphalt for pothole and patch repairs. Manufactured with special additives to help reduce the risk of reflective cracking, PermaFix provides an immediate, permanent repair. It is easy to place in all-weather climates including cold and wet conditions, has no harmful solvents, has a long shelf life, and is more effective and longer lasting than conventional cold mix asphalt products. PermaFix can be used to repair potholes, utility cuts, driveways, patches, and edge breaks on roads, parking lots, and driveways.

PERMANENT

- Ideal for instant, high-quality repairs to bituminous asphalt or concrete surfaces
- Permanent, one-time repair
- Protects against freezing/rain/rutting damage
- Material will begin to cure once compacted

CONVENIENT

- Portable material delivered direct to jobsite
- No heavy equipment needed
- Little downtime – open to traffic immediately
- Supplied in various sizes and in bulk

VERSATILE

- Use in wet or dry conditions (in temperatures down to 15°F)
- Effective solution for a variety of repairs
- Extended storage life up to two years
- Less waste – leftover material can be re-used

SAFE & EASY TO APPLY

- 100% recyclable
- No noxious or dangerous fumes
- VOC compliant in all 50 states
- No mixing time; ready to use
- No heating required
- No tack coat required

Available in bulk and bags

GemSeal manufactures, supplies, and specifies pavement preservation products nationwide including sealers and additives, lot marking paints, crack sealants, pothole patches, primers, tools, and equipment. For over 60 years, we have been defined by our products, value, delivery, and customer support. We guarantee exacting quality control and consistent results on every jobsite nationwide.
